Attention to detail,
Technological watch
}

Web developer with product experience and a user-centered approach. Frontend specialist, with a strong interest in performance optimization and clean architecture principles.

I am looking for a collaborative environment where I can leverage my professional background, optimize user engagement and loyalty, and advance my technical expertise.

Experiences

FRONTEND DEVELOPER
AGENCE RACCOURCY | LA ROCHELLE, FR | NOV 2021 - NOW

- Developed responsive and accessible user interfaces for web applications.
- Collaborated closely with designers to translate wireframes into functional front-end components and features.
- Optimized website performance by implementing code splitting, lazy loading, and other techniques to improve web core vitals.
- Implementation of unit test coverage and E2E tests for ensuring code reliability.
- Implemented accessibility features and best practices (WCAG, ARIA) to create inclusive user experiences.

LIVE OPERATIONS MANAGER
WINAMAX | LONDON & PARIS | AUG 2009 - SEPT 2019

- Developed and executed comprehensive online events and planning for a 10M€ / month poker games offer.
- Leveraged data analytics to monitor event performance metrics, conduct A/B testing, and optimize KPI, helping reach a 20% annual growth.
- Collaborated cross-functionally with product, marketing, analytics, and creative teams to deliver immersive online events.
- Contributed to Winamax's online operations strategy, defining gamification processes and exploring innovative approaches.
- Stayed up-to-date on French iGaming regulations and market trends to create compliant online iGaming operations.
